

ICE ICE BABY

Snowed In

Due to COVID-19, this year is hard to hangout with friends, travel to different places, and just simply have fun. This is really upsetting on a lot of students and staff. So, many students take any chance they get to leave their house and just be outside.

A big winter activity that has been missed this year is snowboarding/skiing. Besides the fact that there has not been much snow this year, ski lodges have not been open. The pandemic has also slowed down lodges from opening. Jaden Earl (9) loves to go snowboarding with her friend Rihan Rosario (9). They have struggled getting a chance to go up on the mountain with COVID-19. Earl says that things have been different this year, "lodges have more restrictions but all that matters is that we get out and have a good time."

Even through this hard time, students are still trying to make the most of their winter.

Staff members were also finding it hard to have a normal winter. Jeana Croft has missed out on her favorite activities this year. She is used to getting together with friends and family all the time. It was just something people are familiar with. Croft says, "I have missed having big groups of friends over for hot chocolate, warm cookies, and to play board games." But now it became a nice gift to see those closest to you.

SHREDDIN': Jaden Earl enjoys snowboarding with friends in the winter. Earl says, "it is just another reason to be in the mountains." Photo ~ R. Rosario

SIX FEET: Taylor Pierce (11) eats lunch at school sometimes. Students say it can be hard to talk with friends with the COVID seating, but Pierce says "it's good that everyone still makes the most of the situation."
